Need help buying a used car?
We'll walk you step-by step
with our easy to use workbook,
"How To Buy A Great Used Car."

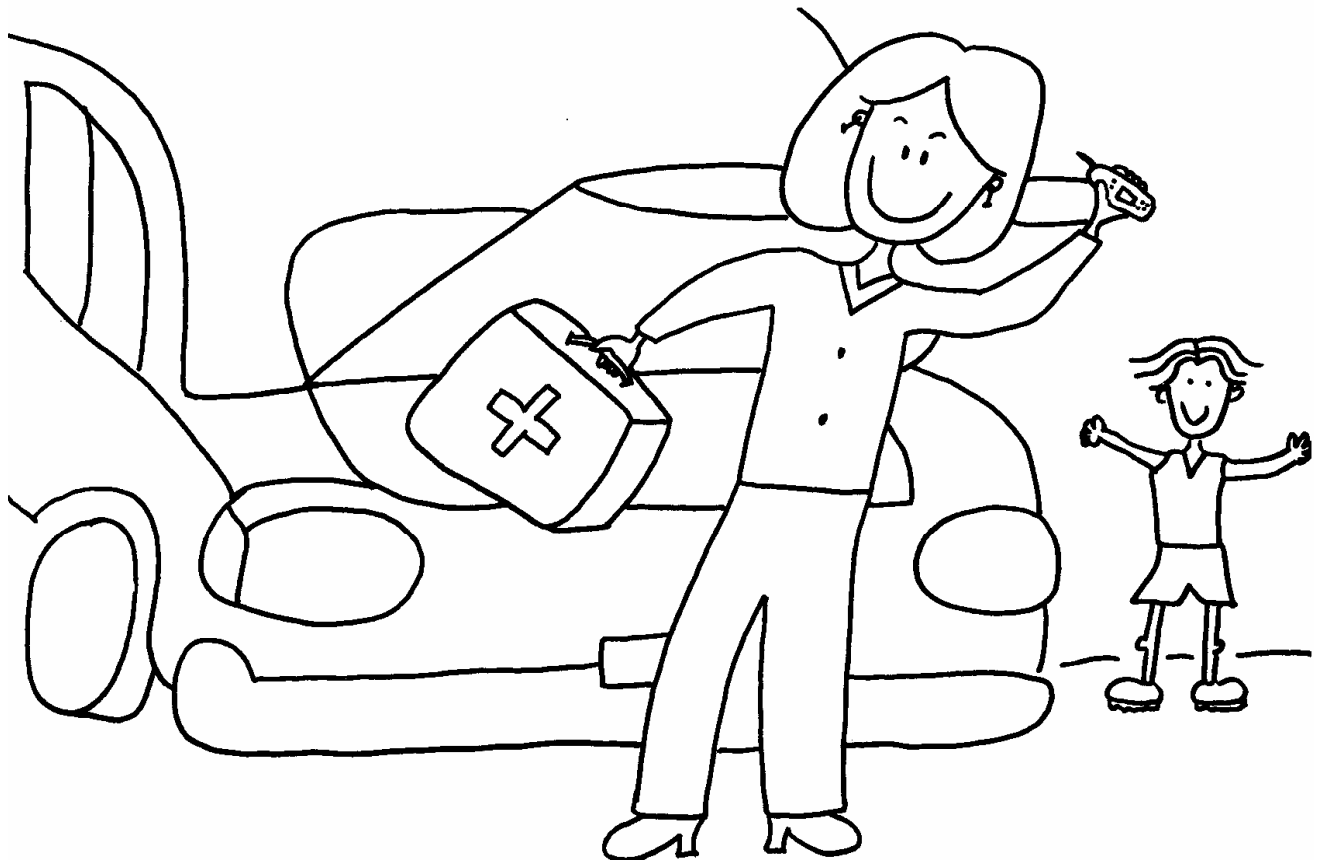

A Thorough: Used Car Inspection Service

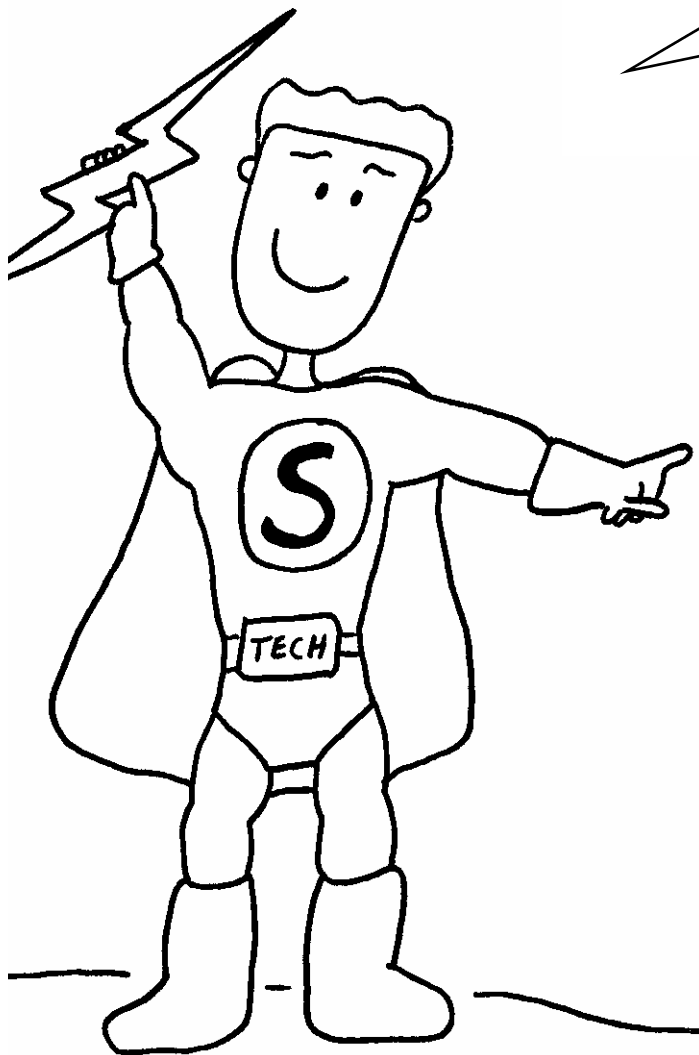

Be Prepared!

Have in the trunk of your car:

Spare tire & working jack, jumper cables, motor oil, antifreeze, flares and reflectors, flashlight, and a blanket.

Important Safety Tips

- Don't let the gas tank get too low!
- When you leave the car, flip up the drivers seat! It should be in the same position when you return to your car. If it is not, walk away and go someplace safe and call for help!
- In town at night? Park in a well - lighted, high - traffic area.
- Never leave the keys in the car!
- Never leave the car running, even when you dash in and out of that little country store!
